

TALK OF THE STATE

MONTANA FCCLA

VOLUME 1 AUGUST 2019 LIMITED EDITION

DISCOVER **YOUR** SUPERPOWER

Welcome back, FCCLA members and advisers! This year will be packed with some amazing opportunities to promote & grow local chapters, further develop your leadership skills, & continue impacting your community with service projects. Be sure to stay connected to Montana FCCLA's latest news, events, & updates by checking our website & following us on Facebook and Instagram.

This summer, the State Executive Council has been hard at work creating programming for members to share your story & create our story. The SEC invite you to "Discover Your Superpower" throughout the 2019-2020 school year by participating district meetings, leadership conferences, & the State Outreach Project.

District meetings are right around the corner! Be sure to check in with your district president for meeting times & locations. The district officers elected at each meeting have an important role in the success of our organization; each district elects a president who will serve on the State Executive Council next year. For more information, visit our website!

The Fall Leadership Rally will be held September 29 & 30 at Fairmont Hot Springs! We hope you are inspired to explore the "Power of You" as you engage with your fellow members from across the state and develop programs of work for the year. This year, **for the first time in history**, you will have an opportunity to try out competing in an FCCLA event at the Leadership Rally! Sign up for one of three events, or flex your FCS know-how in the Knowledge Bowl, or volunteer as a Student Evaluator. These events will introduce you to the world of FCCLA competition, and you'll have the chance to win some prizes! Registration information can be found at mtfccla.org/conferences/leadership-rally

In the summer of 2019, Montana FCCLA adopted the Resilient You: Positively Impacting Wellbeing as its State Outreach Project. Through educational programming and service learning, we believe our chapters can make an impact within their local school districts and/or communities. Each chapter is encouraged to develop a project that is meaningful and impactful to their specific region in Montana. Find resources, project ideas, and grant information on the Montana FCCLA website.

On behalf of the State Leadership Team and the State Executive Council, I extended excitement for the year to come! We are looking forward to meeting each and every one of you soon! - *Whitney*
